JOIN US IN SUPPORTING YOUTH VOLUNTEERING AND CREATING A POSITIVE IMPACT ON SOCIETY!

We believe that volunteering can be a powerful alternative to schooling, providing young people with a unique and open-ended learning experience. Rather than focusing solely on predefined educational goals, our project aims to foster an atmosphere where young individuals from diverse backgrounds can come together, interact, and exchange ideas in groups.

We are thrilled to support youth volunteering during our project because it's not just about individual growth; it's about promoting social inclusion, supporting disadvantaged groups, and building a strong sense of solidarity and community in society.

Together, let's build a stronger, more inclusive society and empower young people to become changemakers through the power of volunteering!

KICKOFF MEETING – NICOSIA, CYPRUS

The meeting started at Hub Nicosia with a warm welcome and practical information about the day, setting the tone for a productive meeting.

During the meeting, we presented the progress of the project and the objectives. After that, we presented the results of the survey so far and what are the next steps. These insights provided a thorough understanding of the current state and the pathway forward. Also, each partner showcased their best practices found.

In the second half, we continue discussing about the guiding principles for volunteers' mentors & coordinators. Finishing the day about the dissemination and a plan how we can make our project more visible for our audiences.

The meeting ended successfully and we are eager to continue the work on the project.
