FOR VOLUNTEERS' MENTORS AND COORDINATORS

About the project

MP4Mentors is a collaborative effort focused on empowering volunteer leaders across five European countries. We recognize the incredible potential of youth volunteering, but also the need for well-equipped mentors and coordinators to guide and support young participants.

Guideline

The guide provides comprehensive insights into managing volunteer programs, covering recruitment, training, supervision, and retention. It emphasizes fostering respect, recognition, and continuous improvement to ensure volunteers feel valued and motivated. The guide's chapters cover program fundamentals, evaluation, campaigning, financial management, and corporate partnerships, aiming to enhance volunteer engagement and community impact.

The guideline is available [here](#)

What's next?

Transnational partner meeting- the partners will meet in Romania to evaluate the project and plan the next activities.

WP 4-E-learning platform for volunteers' mentors & coordinators

The e-learning platform for volunteers' mentors and coordinators will develop as a digital tool that will enable target users to access training resources and self-assessments easily.
